

Name	Margaret L. MacMillan, MD, MSc, FRCPC	
Current Position	Professor	
Country	United States of America	
Major Field	Pediatric, Blood and Marrow Transplantation & Cellular Therapy	

Education Background

Degree	Institution	Date Degree Granted
BA	University of Western Ontario London, Ontario	1989
MSc	University of Toronto Toronto, Ontario	1985
MD	University of Toronto Medical School Toronto, Ontario	1991
Pediatrics Internship	University of Toronto, Hospital for Sick Children, Toronto, Ontario	1991-1992
Pediatrics Residency	University of Toronto, Hospital for Sick Children, Toronto, Ontario	1991-1995
Fellowship in Hematology/Oncology	University of Toronto, Hospital for Sick Children, Toronto, Ontario	1995-1997
Fellowship in Blood and Marrow Transplantation	University of Minnesota, School of Medicine, Minneapolis, MN	1997-1999

Professional Experience – Academic Administrative Appointments

Member, M Health Fairview, University of Minnesota, Masonic Children's Hospital Philanthropic Board	2022-
Director, Division of Blood and Marrow Transplantation & Cellular Therapy, Department of Pediatrics, University of Minnesota, School of Medicine, Minneapolis, MN	2020-

Other Experience and Professional Memberships

Children's Oncology Group	2005-present
American Society for Blood and Marrow Transplantation	2000-present
American Society of Hematology	1995-present
Fellow, Royal College of Physicians and Surgeons of Canada	1995-present
American Academy of Pediatrics	1994-present
American Board of Pediatrics	1994-present
Society for Pediatric Research	2005-2009
Canadian Hematology Society	1995-1998
Ontario Medical Association	1991-1998
Canadian Medical Association	1991-1998
Canadian Pediatric Society	1991-1998

I am Professor in Pediatrics and Director of the Pediatric Blood and Marrow Transplantation and Cellular Therapy Division at the University of Minnesota. My research interests focus on optimizing the care for patients with Fanconi anemia from diagnosis, through hematopoietic cell transplantation and thereafter for life. Over the past 25 years, I have focused on the development and implementation of novel strategies to optimize cellular therapies for patients with Fanconi anemia. I am co-chair the Fanconi Anemia Comprehensive Care Program at the University of Minnesota, one of the largest FA centers and have taken care of >350 patients with FA. My research is equally focused on the development and implementation of novel strategies to prevent and treat acute GVHD, and in the optimization of acute GVHD clinical trial design by determining GVHD risk and best trial endpoints. I Co-Chair the GVHD Translational Working Group for the Masonic Cancer Center at the University of Minnesota. I have authored more than 180 peer-reviewed publications, reviews and book chapters.
